PACKAGING DAYS 2023.
WELCOME.

FOCUS ON CUTTING.
FROM 19 TO 21 SEPTEMBER 2023
AT WEINIG DIMTER IN ILLERTISSEN.

With guest lectures from HPE and other experts from the wood industry

WEINIG

WELCOME

TO THE WEINIG PACKAGING DAYS!

Under the motto „Everything for the packaging and pallet manufacturer", WEINIG will be providing information at the ExpoCenter Illertissen on innovative technologies for the efficient production of wooden packaging, crates and pallets.

On more than 20 running machines including software solutions and a high-performance cross-cut system with automatic destacking unit and stacking machines, WEINIG will show how the production of packaging and pallets made of wood can be set up for the future, even in times of a shortage of skilled workers and raw material price increases.

Current developments will be presented in technical lectures by HPE Managing Director Marcus Kirschner and other experts from the wood industry. In live demonstrations, WEINIG will show how to cut efficiently and digitally optimize cross-cutting processes.
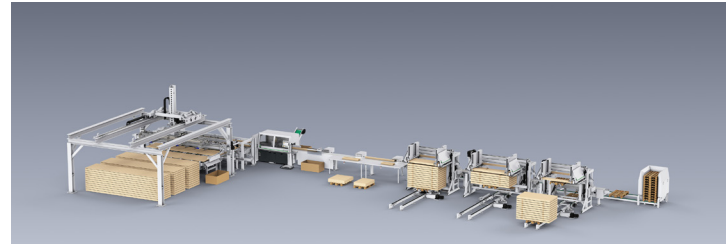

Numerous guest exhibitors (over 20) from related production areas will be on hand to offer advice and demonstrate further components that turn a piece of wood into complete pallets and packaging. The programme will be rounded off with an evening „Get-together" with industry colleagues and manufacturers.

We look forward to your visit!

Your WEINIG team

MACHINE HIGHLIGHTS

HIGHLIGHT: OptiCut S 90 Speed with fully automatic destacking unit and automatic stacker

HIGH-PERFORMANCE CROSS-CUT SYSTEM WITH FULLY AUTOMATIC DESTACKING UNIT AND AUTOMATIC STACKER

Experience live a high-performance cross-cut saw with automatic destacking unit, bundle formation, feed to the OptiCut S 90 Speed cross-cut saw, automatic stacking unit and empty pallet feed for fully automated cutting of pallet and packaging goods.

NEW: Presentation of the new EuroStacker stacking concept

THE SIMPLE WAY TO STACK

Become more efficient in your operations while remaining maximally flexible. Maintain and promote the health of your employees.

With a manageable investment, you can have workpieces stacked semi-automatically.
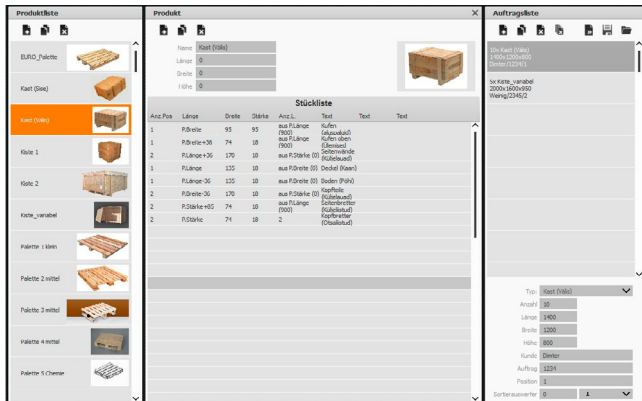

SOFTWARE SOLUTIONS

Cutting for all types of wooden packaging

PRODUCE PACKAGING AND PALLETS

Packaging protects and transports goods. With machine solutions from WEINIG, you can offer your customers packaging of all kinds – stable, secure, in all sizes – from wooden crates, clip-on frames, pallets, transport floors to special constructions for sensitive goods.

Optimize your raw wood consumption with the OptiPal software

OPTIMIZE CUTTING WITH SOFTWARE TOOLS FROM WEINIG SUCH AS OPTIPAL...

Whether hardwood or softwood, planed or not, you can cut any type of wood with the cross-cut saws from WEINIG. And not only that – the optimization software OptiPal offers you:

- an improvement in your production processes,
- maximization of your material yield and
- more transparency in the production process.

PROGRAMME

PROGRAMME 19 - 21 SEPTEMBER 2023

09:00 - 09:20	Welcome and bavarian breakfast
09:30 - 10:00	Guest lectures
10:00 - 11:00	Presentation and live demonstration of the high-performance cross-cut system
11:00 - 12:00	Live machine demonstration
12:00 - 13:00	Lunch
13:00 - 13:30	Guest lectures
13:30 - 14:30	Presentation and live demonstration of the high-performance cross-cut system
14:30 - 15:30	Live machine demonstration
15:30 - 16:00	Presentation and live demonstration of the high-performance cross-cut system
16:00 - 18:00	Live machine demonstration
from 18:00	Get-together (on 19 and 20.09) with Swabian-Bavarian delicacies, good beer and informative discussions with industry colleagues and manufacturers

MACHINE PORTFOLIO

DEMONSTRATION MACHINES IN THE EXPOCENTER

Experience our machines live. Get advice from specialists in the field of solid wood. Benefit from the experience of users and experts.

CUTTING AND GLUING

Positioning system EasyStop

Under-table cross-cut saw OptiCut C 50+ with EasyStop

Pushfeed saws OptiCut S 50, OptiCut S 50+, OptiCut S 50+ Powerdrill, OptiCut S 90 Speed, OptiCut S 90 with new EuroStacker and stacking robot, OptiCut S 90 Speed high-performance cross-cut system with fully automatic destacking and bundle stacker

Throughfeed saws OptiCut 150, OptiCut 260, OptiCut 450 Quantum

Gluing presses ProfiPress L B 3100 x 650, ProfiPress L II 2500 Comfort, ProfiPress T 2500 Next Generation

RIPPING

Rip Saws FlexiRip with OptiCut C 700 Flexi with EasyStop, VarioRip 310 M2, ProfiRip 340, ProfiSplit 1100

PLANING

Planers Powermat 700, Cube 3

SCANNING

Scanning system EasyScan C

PANEL PROCESSING

Panel saws Sector 1257, Tectra 6120 Power
